

The Department of Computer Science at University of Alabama at Birmingham (USA) invites applications for a PhD position under the mentorship of Dr. Sidharth Kumar (<https://sidharthkumar.io/>). We are looking for a motivated, technically sound, collaborative PhD student. The student will conduct cutting edge research in the field of High Performance Computing (HPC), and data analytics. Students interested in machine learning, visualization and graphics should also consider applying. This position is not tied to a specific project, therefore research topics are flexible. The student should preferably have a masters degree in computer science, exceptional candidates with only a bachelor's degree may also apply. Interested students may also directly contact Dr. Kumar at sid14@uab.edu.
